1. The following is an examiner's statement of reasons for allowance: since the prior art does not teach to select a phase delay of at least one phase delay element such that the product $K(T)=TV(T)*TW(T)$ is at least approximately temperature independent and the length of the phase delay element such that a contribution of the phase delay element to the temperature

dependence of the sensitivity of the sensor at least approximately compensates for a contribution of a Verdet's constant of the sensor fiber to the temperature dependence of the sensitivity of the sensor.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
